

INTERNSHIP LAB FOR PRE-FINAL YEAR ENGINEERING / M.TECH STUDENTS

KEY FEATURES

1. To bridge the gap between industry and academia.
2. A full fledged training and R&D facility.
3. Students can interact with industry experts for guidance and mentorship.
4. It facilitates to work on various domains like Image Processing, Power Electronics, Communication, Wireless Communication, Signal Processing, Biomedical, Geo Science & Remote Sensing.
5. Work on real time projects to get hands on experience before graduation this will help the students to get the competitive edge for various jobs in the industry. We help to match between the job requirements of the industry and the capability of the candidate.
6. To bridge the gap between industry and academia.
7. Marketable candidates with Resume Building, Mock Interviews, Soft Skills Training, Free Online Employability Test

Domains We Assist:

- ✓ IMAGE PROCESSING
- ✓ COMMUNICATION
- ✓ WIRELESS COMMUNICATION
- ✓ SIGNAL PROCESSING
- ✓ POWER ELECTRONICS
- ✓ BIOMEDICAL

Matlab & Simulink

- ✓ WHAT IS MATLAB??
- ✓ HOW TO USE MATLAB??
- ✓ POSSIBILITIES OF MATLAB
- ✓ PROGRAMMING IN MATLAB
- ✓ HOW TO USE TOOLS IN MATLAB?
- ✓ SIMULINK
